APPS AND INTEGRATIONS

DIGITAL WORKPLACE

Business challenge

Refresh your data environment and improve performance.

Emergency response teams rely on the right data presented at the right time. In complex working environments and pressure-filled situations, AI-integrated emergency response systems make the best intelligence securely available to all the right people, exactly how and when they need it.

Our solution

A modern, right-sized IT foundation

For decades, Insight has guided emergency response and other public safety teams toward the ideal IT foundation that frees them from old constraints and accelerates their performance.

In practice, this means embracing new AI capabilities to free personnel time and attention, enabling seamless data sharing across device types and locations, and enhancing communication and decision-making for everyone. Specific benefits include:

Benefits

- Faster emergency response with fewer technical hurdles
- More time spent in the field conducting missions
- Reliable, data-driven interventions and public engagements
- Streamlined, AI-powered dispatch systems

Onboard new AI and related technologies across your ecosystem quickly and easily.

Rely on enhanced, always-there security defenses for any mobile device type.

Quickly create and deploy right-sized IT solutions for your top challenges.

Access the latest hardware and software, with seamless integrations and support.

Emergency Response Systems

The leading Solutions Integrator and partner

At Insight, we help public sector organizations of many kinds navigate complex challenges and develop fresh solutions when, and how, they're needed most. With 20+ years of experience with first responder support, we bring full solution portfolios to meet any need and deep OEM partner relationships allowing you to build the right solution without constraints.

Digital Workplace

Create a productive, flexible, and secure workplace.

Intelligent Edge

Gather and utilize data in the most efficient way possible to enable real-time decision-making and affect pivotal outcomes.

Modern Apps

Create new product experiences and transform legacy applications to drive increased value.

Data and AI

Leverage analytics and AI to transform operations and user experiences

Modern Infrastructure

Architect and modernize multicloud and networking solutions to drive transformation.

Cybersecurity

Mitigate risks and secure assets.

Driving innovation with digital transformation

At Insight, we help clients enable innovation with an approach that spans people, processes, and technologies. We believe the best path to digital transformation is integrative, responsive, and proactively aligned to industry demands. Our client-focused approach delivers best-fit solutions across a scope of services, including the digital workplace, modern applications, modern infrastructures, the intelligent edge, cybersecurity, and data and AI.
