

Accelerate deployment and adoption of Microsoft 365

Business challenge

Migrating to Microsoft 365 provides many benefits to business — but the transition from on-premises solutions to the cloud can be challenging for IT and end users. Without sufficient support and training, on-boarding and adoption can suffer, resulting in wasted technology investments and declined productivity for your business.

Insight is a Microsoft FastTrack Ready Partner helping clients quickly and securely move to Microsoft 365 with confidence.

Our solution

Take advantage of all the benefits included in your Microsoft 365 subscription. FastTrack provides a combination of resources, engineering expertise, and guidance designed to help make your journey to the cloud effective, efficient, and secure. As a FastTrack Ready Partner, Insight can guide you through best practice discussions to deploy Microsoft 365 and drive user adoption.

Benefits of FastTrack with Insight

FastTrack offers access to adoption templates and change management guides to help you plan for and initiate change across your organization. Insight's FastTrack services provide access to engineering resources to offer guidance and address your deployment questions.

Our proven process includes:

- Accelerated deployment with a set of tools, resources, and best practices to help you deploy Microsoft solutions quickly and efficiently.
- Expert guidance from certified Microsoft engineers and consultants to help you avoid common deployment pitfalls and ensure that your solution is configured correctly for your business needs.
- Minimize the risk of errors by following a standardized deployment process avoiding costly downtime and disruptions.
- Increased adoption by providing training and resources to help your users adopt and get the most out of your new technology, increasing user satisfaction and productivity, and maximize your return on investment.
- By leveraging FastTrack, you can deploy new technology faster and more efficiently helping you gain a competitive advantage and stay ahead of the curve in your industry.
